

1. Overview

Infosys Limited is India's second-largest IT services company, founded in 1981 and headquartered in Bengaluru. With a workforce of over 300,000 professionals operating across 50+ countries, Infosys offers business consulting, digital transformation, and IT outsourcing services. For freshers, it is one of the most accessible Tier-1 employers — hiring ~20,000 graduates annually with structured training at its world-famous Global Education Center (GEC) in Mysuru. In 2025-26 Infosys has been recognised as a Top Employer across Europe, the Middle East, and Asia-Pacific, and was named a Global Leader in AI Services for its Infosys Topaz platform.

2. Hiring Process

Two main entry pathways:

InfyTQ (Online platform)	Campus / Off-campus Drive
Register free at infytq.infosys.com . Complete Foundation or Master certification. Top scorers get directly contacted for SE / SP / PP interviews.	Aptitude test on campus or via InfyCampus link. Shortlisted candidates proceed to Technical Interview → HR Interview → Offer.

Online Assessment (95 min):

Quantitative Aptitude: 10 questions / 25 min — arithmetic, probability, data interpretation

Logical Reasoning: 15 questions / 35 min — puzzles, series, critical thinking

Verbal Ability: 20 questions / 35 min — grammar, comprehension, vocabulary

Pseudo-code / Coding: Added for DSE/SP roles — medium-level DSA problems

Technical Interview: Core CS concepts (OOPs, DBMS, DSA), Java/Python coding, final-year project discussion.

HR Interview: Communication skills, relocation willingness (Mysuru/Bengaluru), behavioural scenarios.

Systems Engineer (SE)	Standard fresher	Rs. 3.6 LPA
Digital Specialist Eng. (DSE)	AI/Cloud/Full-Stack	Rs. 6.25 LPA
Specialist Programmer (SP)	Hardcore coding / R&D	Rs. 8 – 21 LPA

3. Technical Stack

Languages	Java (primary), Python, C++, C#
Web / Full Stack	Spring Boot, React, Node.js, REST APIs
Databases	SQL, MySQL, Oracle DB, basic NoSQL
Cloud	Microsoft Azure, AWS (basic), Google Cloud

Data / AI	Big Data, AI/ML fundamentals (for DSE track), Infosys Topaz
Testing / DevOps	Selenium, JUnit, CI/CD pipelines (nice-to-have for SE)
Core CS (interviews)	DSA, OOPs, DBMS, OS concepts, Computer Networks

4. Recent News (2025-26)

No layoffs — 20,000 freshers planned for FY27

Infosys CEO Salil Parekh confirmed in April 2026 that the company had made zero layoffs in the prior year and plans to onboard 20,000 freshers in FY2026-27, matching FY25-26 levels. This stands in contrast to TCS (~12,000 layoffs), Cognizant (~4,000 cuts), and Oracle (~19% workforce reduction in the same period).

AI-first pivot with Infosys Topaz

AI now contributes ~5.5% of Infosys revenue (growing). The company is scaling its Topaz Fabric internal AI platform and deepening partnerships with OpenAI and Anthropic. Freshers are being trained to build code traditionally AND evaluate AI-generated code — making technical judgment a critical skill for 2026 hires.

Feb 2025: 300+ freshers let go for failing internal assessment

Infosys terminated over 300 onboarded freshers (from Oct 2024 batch) who failed the Mysuru foundational training assessment after three attempts. This policy has existed for 20+ years. Key lesson: clearing the external interview is not enough — the Mysuru training assessment is a second gate that must be prepared for.

5. Eligibility Criteria

Degree: Full-time BE / B.Tech / ME / M.Tech / MCA / M.Sc

Branches: CSE, IT, ECE, EEE, AI/ML, Data Science, and all CS-allied domains

Academic score: Minimum 60% (6.0 CGPA) in Class 10, Class 12, AND Graduation

Backlogs: Zero active backlogs at time of selection process

Education gap: Maximum 2-year gap allowed between 10th and graduation

Batches eligible: 2024, 2025, and 2026 pass-out batches (current drives)

Note on CGPA cutoffs: Off-campus drives require 60% / 6.0 CGPA minimum. On-campus drives may vary by college agreement — some colleges have a 65% cutoff for B.Tech. Always verify with your TPO.

6. 5 Preparation Tips for B.Tech 3rd-Year Students

Tip 1: Register on InfyTQ NOW (free)

Go to infytq.infosys.com. Complete the Foundation certification first, then attempt Master. Master-certified students are directly fast-tracked for SP interviews (Rs. 8+ LPA). Don't wait for final year.

Tip 2: Master DSA in Java or Python

Solve 150+ LeetCode problems — Easy for SE track, Medium for DSE/SP. Focus on: Arrays, Strings, HashMap, Trees, DP, Greedy. The SP coding round is 3 hours with medium-hard problems.

Tip 3: Solidify core CS subjects

OOPs (4 pillars with code examples), DBMS (normalization, SQL joins, 2nd-highest salary query), OS (process vs thread), Computer Networks (TCP/IP basics). Every technical interview covers these.

Tip 4: Prepare your final-year project 3-minute pitch

Infosys interviewers always ask: 'Explain your project.' Prepare a clear 3-minute explanation: problem statement, your role, tech stack used, challenges solved. Practice it aloud.

Tip 5: Participate in HackWithInfy

This is Infosys's annual national coding competition. Top performers get direct offers for Power Programmer / SP roles. Even participating improves your profile. Watch for registration opening in 3rd year.
